

My dearest child.

You are my unique and special creation. I crafted you in my own image, forming you out of the dust of the ground and I breathed into you the breath of my spirit so you became a living being.

I created you to enjoy the most intimate of relationships humans could ever experience - to be able to hear my voice and know that I hear your every word.

I promise to walk with you and protect you from all harm.

I will always love you because I made you and you are precious and honoured in my sight!

With all my love, your father,

God
